Village Improvement Association.

The interest felt by the residents of
Bloomfield in all that pertains to improve-
ments in the village or in the township
at large is still as active as when this Vil-
lage Improvement Association was organ-
ized more than four years ago.

In fact the Association is to be credit-
ed with having developed this interest,
and for a time at least, it had much in-
fluence in directing the course and man-
ner in which improvements were to be
made.

During the last two years, partly owing
to the serious illness of its active Presi-
dent, Dr. Jos. A. Davis, few meetings have
been held, and the organization has with-
drawn somewhat from the consideration
of questions of local interest. During
the past two weeks an attempt has been
made to get the members together and
make a fresh start, but the attendance has
been so small that it was decided to ad-
journ the meeting until Wednesday Eve.,
the 12th inst.

The work done by the Township Com-
mittee has been of great importance to
the township and has been appreciated
by the taxpayers, but the permanent im-
provement of the village must rest in the
hands of the individual property owners.

The extent of their public spirit and pri-
vate taste and enterprise will be the true
measure of our success. The matter of
the improvement of private property even,
ought not to be left to the individual taste
and feelings of the owner; by consulting
with our neighbors and ascertaining to
what extent they are willing to join in
the putting down of stone sidewalks, or in
curbing on the street lines, or in
replacing dilapidated fences by new
and ornamental ones, or in planting shade
trees, or in dedicating land for new streets
in the outskirts of the town, and in a
dozen other such matters we make it pos-
sible to work in harmony and secure
promptly many advantages which one in-
dividual could not obtain single-handed.

There are several property owners who
would agree to build houses on the out-
skirts of the village if they knew that
others would join in so doing, so that
they could make a neighborhood of suf-
ficient size and importance to share in the
benefits of our municipal improvements.

It is for accomplishing such purposes
as these that the Association is organiz-
ed, and it will be plain to every one that
their work is not yet finished, it has only
just begun.

The officers extend an earnest invita-
tion to all the residents of Bloomfield to
attend this meeting at Dodd's Hall next
Wednesday evening, at which time of-
ficers will be elected and committees ap-
pointed and work for the spring and sum-
mer will be considered.

It is especially desired that gentlemen
who have recently become residents of
the village shall attend this meeting and
identify themselves with the community
in which they live.

The Tramp Nuisance.

By the laws of New Jersey, begging
from door to door, wandering from place
to place, and lodging in barns or the open
air, is made an offense punishable by fine
or imprisonment. Ample provision is
made for the care of indigent persons in
almshouses or charitable institutions.

Each county, township, or city is com-
pelled to support those who through sickness,
youth or old age are unable to earn a
livelihood. Begging is therefore unneces-
sary, and, in itself a confession of
wrong. Those persons who can give a
good account of themselves can secure
work at home or failing in that, can ob-
tain aid from the poormasters where they
live. Very few care to obtain work, or
will take it if offered them.

The law adjudges vagrants disorderly
persons, and authorizes their arrest with-
out warrant, and commitment to prison
by a Justice of the Peace. The presump-
tion is that their presence is dangerous

to the peace, property and welfare of the
community. Persons who feed them are
engaged in a misplaced charity, which is
likely to be rewarded by the theft of
their property or assaults upon their life.

In this village, tramps have become an
intolerable nuisance. Bums in the out-
skirts are filled every night with roving
men and sometimes women, whose des-
perate character is written upon their
faces.

To feed such men and women is but to
confirm them in their evil habits, to save
them not from starvation but from work.
Where they congregate there is no safety
for women or children by night and
scarcely by day. Without homes or fami-
ly attachments of any sort, strangers to
everybody, they plunder with impunity
the peaceful communities through which
they roam.

Satisfied in winter with a
three months' stay at the penitentiary, in
the summer they become highwaymen,
vagrants, tramps, land-pirates, or sharks.

In a word their presence is intolerable,
useless to themselves, a menace to peace-
loving citizens, and a disgrace to our
civilization.

It is time that the laws of the
State were enforced. No better dis-
position could be made of a portion of
the money devoted to police purposes
than by authorizing the arrest and com-
mitment of these tramps to the Work-
house. Let it be published abroad that
this township will harbor no vagrants,
that every man found begging upon the
streets unless he can give a good account
of himself, will be summarily arrested
and committed, and this nuisance will
soon cease. We commend to the atten-
tion of the Township Committee the fol-
lowing extracts from the Revised Statutes,
for their immediate and decisive action:

Revision of Laws of New Jersey, p. 304,
section 1—Disorderly persons * * *
and all persons who shall go about from door
to door, or place themselves in streets,
highways or passages to beg, crave chari-
ty or collect alms, or who shall wander
abroad and lodge * * * in the open air,
and not give a good account of them-
selves * * * shall be deemed and adjudged
to be disorderly persons.

Section 10, page 306.—It shall be the
duty of every constable, and lawful for
other persons, to apprehend without war-
rant or process any disorderly person of
the description aforesaid, and to take
him or her before any Justice of the Peace
of the county where apprehended, and it
shall be the duty of such Justice to com-
mit such disorderly person when convict-
ed before him by confession of the offend-
er, or by the oath or affirmation of one
or more witnesses, to the Work House of
the city, town or county, there to be kept
at hard labor for any time not exceeding
three calendar months, except when here-
in otherwise particularly prescribed.

The Township Committee have receiv-
ed several applications requesting that
the water mains be extended through
streets which are not now supplied.

It is within the power of the Commit-
tee to contract for water for ten more hy-
drants, and this should secure nearly a
mile and a half of mains. The applica-
tion of Mr. Henry Lindenmeyr to have
the mains extended to his property, a dis-
tance of a quarter of a mile above Bay
Lane, has been granted by the commit-
tee. Mr. Lindenmeyr has recently pur-
chased a considerable tract of land ad-
joining his residence, and we are inform-
ed that he contemplates building several
houses upon it this year. All the prop-
erty on Broad street above the Green-
wood Lake Railway is favorably situated,
and if the owners will begin building
operations pretty soon, there is no good
reason why they should not share in the
growth of the town.

State Items.

State Comptroller Anderson's great-
grandfather was one of the Commis-
sioners for the purchase of ground for the
first State House, in 1791, and now the
Major himself, as State Comptroller,
ninety-five years later, is one of the Com-
missioners for the rebuilding of that
structure.

Cooper, Hewitt & Co., who are oper-
ating the Gulick and the old Beemer
mines at Chester, on Tuesday raised the
wages from \$1.10 to \$1.25 for laborers,
and machine runners to \$1.50 per day.
The Chester Highland Iron Company al-
so raised the wages to the same figures
above mentioned, which makes it the
highest rate of wages paid in that re-
gion.

The contest between gas and electrici-
ty has been of great benefit to Atlantic
City financially. The price of lighting
the street lamps with gas has been re-
duced from twenty-five to fifteen dollars
per year, and the arc lights have been
reduced from ninety to fifty cents per
night. The Edison Company is putting
in its plant and will be in operation by
June 1st.

The Baltimore and Ohio Railroad from
Baltimore to Philadelphia is expected to
be completed to Chester next week, and
connection made with the Reading Rail-
road branch at that city. It is under-
stood to be the intention to make an
early commencement of freight traffic by
this route over the Reading and New
Jersey Central lines from Baltimore to
New York.

While crossing from Jersey City at 2
o'clock on the morning of June 9, 1886,
on the ferry-boat Susquehanna, John
Gregory, driver of a milk wagon, fell into
a coal hole, sustaining severe injuries.
He brought a suit for \$25,000 damages
against the New York, Lake Erie and
Western Railroad Company. The case
was tried Thursday and a verdict for \$5-
000 was given for the plaintiff.

The New Brunswick Fredonian says

"It is too early to predict who will be
the Republican candidate for Governor
of New Jersey next Fall. A number of
good men have been named, but the par-
ty has not yet got down to solid work on
the question. General Ward, of New-
ark, seems to be just now a general fa-
vorite. There is plenty of time before
the nomination to think over the matter,
and keep the Democrats in a stew."

For many years the Temperance peo-
ple of Middletown, near Long Branch,
have been trying to prevent the issue of
a liquor license to the proprietor of the
American Hotel, the only hotel in the
town. They tried to secure the indict-
ment of the landlord for illegally selling
liquors, but without success. They have
succeeded in renting the hotel over the
head of the old landlord who had occu-
pied it for twenty years, and will now
run it as a temperance house.

Through the efforts of the Bertrand
Island Club, a bill has been passed
through the Legislature and signed by
the Governor, supplementing the game
and fish law in such a manner as to put
a stop to the discharge of acids and other
poisonous matter into Lake Hopatcong.
It was discovered last year that the
fish in the lake were being destroyed by
acids from the Force Company's
factory, and the bill in question was
framed after the source of the trouble
was definitely ascertained.

PROPOSALS FOR SIDEWALK CONSTRUCTION.

Proposals are hereby invited for the con-
struction of about 5,000 lineal feet of stone
sidewalk. Said sidewalks to be constructed of
flag four feet wide, of the standard quality,
and twenty inches thick. The contractor to fur-
nish sand and complete the work to the satis-
faction of the Township Committee. These
proposals will not include the cost of grading,
which will be considered under the supervision of
